

## ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

One hundred and forty-two dogs are owned in Windsor.

Samuel, young son of F. E. Stokes of Starkboro, broke his leg above the knee a few days ago while sliding.

Mr. and Mrs. N. F. Weld will observe their 60th wedding anniversary Jan. 25 at their home in Enosburg Falls.

The train from Bristol struck and killed a horse driven by Smith Rose of New Haven one day last week.

The old railway station in Burlington is being rapidly taken down and within a few days will all be cleared away without a train being delayed.

Mrs. Harriet N. Jackson, who died Thursday at the home of her daughter, Mrs. Robert Brown, in Pownall, had reached the age of 90 years.

Had Joseph Pariseau of St. Albans lived until April 12, he and his wife would have celebrated the 60th anniversary of their marriage, but he died Saturday forenoon.

Edgar D. Aldrich, a private in Co. F, 15th N. H., and a veteran of the Civil war, died at the Soldiers' home in Bennington Saturday. He was admitted from Sharon March 2, 1916.

Dr. Henry M. Larson, Jr., of Brooklyn, N. Y., formerly of White River Junction, has been appointed an assistant to the Rockefeller institute and resident physician of Rockefeller hospital.

In an every-member canvass by members of a committee from the Rutland Congregational church Sunday afternoon, an incomplete return shows that \$5,675.20 was pledged for church expenses and \$1,456.28 for benevolences.

Fred B. Jennings of North Bennington is appearing as counsel for the Associated Press in its suit against William Hearst in which the association charges that the Hearst papers have been permitted to obtain war news dispatches to which they had no legal right.

Raymond Jangraw of Rutland has a broken arm with which he tried to stop a sled on which he and three girls were sliding Wednesday when it went out of its beaten track and headed for the river. He succeeded in stopping the sled by grabbing a projecting board, but both bones of his arm were snapped off.

## GETS LIQUOR LICENSE.

John H. Dunn Granted That Held at New Sherwood in Burlington.

Burlington, Jan. 23.—The hearing in the case of John H. Dunn's application for a license of the first class in the New Sherwood hotel was held before the license commissioners yesterday and the license was granted. Dunn was the only applicant and at the hearing there were no objections presented to the granting of the license. Dunn opened the bar yesterday afternoon.

The license is granted to fill out the unexpired time of the license of Thomas H. Murphy, deceased, who formerly conducted the hotel.

## CLOSED WINDOWS—GRIP.

Secretary Dalton of Vermont State Board of Health Tells of Danger.

What is called "the closed window season" is reaping a harvest in the way of grip and pneumonia in this city, and according to physicians, the inhabitants dislike for ventilation when the thermometer is low is the main contributing factor.

Dr. C. F. Dalton, secretary of the Vermont state board of health, described the situation this morning to a reporter. A house without proper ventilation is particularly encouraging to those diseases which are thrown off in the respiratory process and the germs of which thrive indefinitely on stale air. The best preventive is oxygen and the only way to get that is to let a proper amount of outdoors in, he says. Even if the sleeping room is not heated it is better to incur some disagreeable cold on getting out of bed than to inhale the same air all night.

The history of grip and diseases of the same character is apparent. A person having any of the afflictions sneezes, coughs or even breathes in a room and the germs are sent out. They thrive on the worn-out air and sooner or later another person or perhaps the same person inhales them and, with no oxygen to kill the germs, becomes afflicted.

Grip, pneumonia and the others render a person all the more likely to another affliction, as they weaken the resistance power. They are entirely different from measles and other diseases which in their progress develop a sort of antidote which in many cases prevents a recurrence of the disease.

## RUTLAND FAIR DATES

Will Be Sept. 3, 4, 5, 6 and 7—Other Arrangements.

The Rutland fair of 1917 will be held on Sept. 3, 4, 5, 6 and 7. This was decided at a meeting of the directors of the Rutland County Agricultural society which was held at Rutland Saturday afternoon.

The usual vote to invite the Rutland Horse Show & Breeders' association and the Interstate Poultry & Pet Stock association to hold their exhibitions in connection with the fair was taken. That there may be funds at hand to guarantee all expenses for the week H. O. Carpenter and W. R. Kinsman were appointed a committee to raise \$10,000. Fifty persons to guarantee \$200 each will be secured.

Automobilists who visit the 1917 fair will find much better accommodations than ever before. In the first place, a new building which will house 100 cars for exhibition purposes has been ordered. Another improvement which the directors favor and which will probably be made is the building of an underpass to permit connections with inside of the race track. It will be arranged next fall so that automobiles will enter by one side of the grounds and go out by another, thus reducing danger of accident to a minimum.

The directors appointed Sec. W. K. Farnsworth as a delegate to the Green Mountain circuit which meets in Bellows Falls, to the New England Horsemen's association meeting at Boston and to the American Hackney Horse society meet-

## 5,000,000 Corns Lifted Right Off!

Try a Drops of Magic "Gets-It"

There's a wonderful difference between getting rid of a corn now and the way they used to get rid of it. Only four or five years ago "Gets-It" has revolutionized corn history. It's the only corn remedy today that acts on

"See? Just 2 Drops of 'Gets-It' Now Tomorrow You'll Just Feel That Corn Right Off—and It's Gone!"

The new principle, not only of shoving up the corn, but of loosening the corn off—so loose that you can lift it right off with your fingers. Put 2 drops of "Gets-It" on that corn or callus tonight. That's all. The corn is doomed, sure as sunrise. No pain, or trouble, or soreness. You do away once and for all with toe-bundling bandages, toe-eating salves and irresponsible what-nots. Try it—get surprised and lose a corn.

"Gets-It" is sold everywhere. 25c a bottle, or on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Barre and recommended as the world's best corn remedy by F. G. Russell and E. A. Brown—Adv.

ing in New York. Attendants at these gatherings give the Rutland fair association valuable advertising and goes a long way towards securing the best grade of horses for racing and for exhibition purposes.

## BORN IN LYNDON.

Mrs. Cordelia H. Nichols Died at Westfield, Mass.

Westfield, Mass., Jan. 23.—Mrs. Cordelia H. Nichols, 84, widow of Hiram M. Nichols, died Sunday morning at the home of her daughter, Mrs. George W. Bruce of 5 Woronoco avenue. For one and one-half years she had been in failing health and she had been confined to her bed for the past five weeks.

Mrs. Nichols was born in Lyndon, Vt., Dec. 19, 1832, and her parents were Daniel and Polly (Woodruff) Kimbly. Most of her life was passed in her native town, but upon the death of her husband 17 years ago she went to Westfield to live with Dr. and Mrs. Bruce. The Kimbly family was among the early settlers of Lyndon. Mrs. Nichols was in many ways a remarkable woman. In spite of her advancing years, her mental faculties remained keen and alert and she remained an active interest in all that was going on in the community and in the world at large. Her sympathy went out to those in distress and her life was marked by sincere devotion to her family and friends. As one of her neighbors said yesterday, she was a typical gentlewoman of the old school, tender-hearted, hospitable and generous, a true Christian. The temperance movement was of special interest to her and the advances made of late years in the west and south along the line of prohibition gave her much satisfaction.

Mrs. Nichols was a member of the Baptist church in Lyndon Center, Vt., but while in Westfield she attended the Second Congregational church. While in Lyndon her interests were broad and unselfish and she took an active part in all worthy community affairs. She leaves three sons, Albro F. Nichols of St. Johnsbury, Stephen D. Nichols of Lyndon, Dr. E. M. Nichols of Glover, Vt., a daughter, Mrs. G. W. Bruce of Westfield; four grandchildren, three brothers, H. A. Kimbly of Springfield, D. J. and J. P. Kimbly of Portland, Ore., and one sister, Mrs. E. P. Sweetland of Portland, Ore.

It Nearly Killed Him. "Medicine won't help you any," the doctor told his patient. "What you need is a complete change of living. Get away to some quiet country place for a month. Go to bed early, eat more roast beef, drink plenty of good rich milk, and smoke just one cigar a day."

A month later the patient walked into the doctor's office. He looked like a new man, and the doctor told him so.

"Yes, doctor, your advice certainly did the business. I went to bed early and did all the other things you told me. But the doctor, that one cigar a day almost killed me at first. It's no joke, starting in to smoke at my time of life."

Compulsory Thrift. is the aim of life insurance. That means compulsory saving and the result is protection for the family. 68th year. National Life Ins. Co. of Vt. Mutual. S. S. Ballard, general agent, Rialto building, Montpelier, Vt.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

If Peevish, Feverish and Sick, Give "California Syrup of Figs"

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach ache, diarrhea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative" and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given to-day saves a sick child to-morrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."—Adv.

## BLOCKADED

Every Household in Barre Should Know How to Resist It

If your back aches because the kidneys are blocked.

You should help the kidneys with their work.

Doan's Kidney Pills are especially for weak kidneys.

Recommended by thousands—home testimony proves their merit.

Adam Deste, stone cutter, No. Main street, Barre, says: "Three years ago, I had a constant, dull pain across my back over my kidneys. It was hard for me to bend over, because the pains were quite sharp. A few boxes of Doan's Kidney Pills gave me great relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Deste had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

## JUDGING HORSE'S AGE.

Teeth Furnish Fairly Accurate Indication—Yearly Changes Which Ordinarily Occur.

Until a horse is over 10 years old the teeth furnish an indication of age which is fairly accurate. In estimating the age of a horse, only the three pairs of front teeth or nippers on each jaw are considered.

Horses, like human beings, have two sets of teeth; the first set, known as milk teeth, being replaced by permanent teeth. New teeth have deep cups, or indentations, at their centers. As the teeth wear down these cups disappear.

A colt does not usually get its first pair of nippers until it is a few days old, but has all three pairs by the time it is six to 10 months' old. Until a colt is three years old, however, its general appearance is relied upon largely to indicate its age.

Following is a description of the yearly changes which ordinarily occur in the teeth of a horse.

One year.—The center pair of milk incisors, known as the pinches, and the pair next to them, known as the intermediates, are well through the gums and in contact, but the corner pairs do not yet meet on a level.

Two years.—The pinches and the intermediates indicate that they are being crowded by the permanent teeth, as they are pushed free from their gums at the base. By the time the colt is two and one-half years old the middle pinches should be through. The permanent teeth are much larger than the temporary ones.

Three years.—The middle pinches are large enough for use. Their deep cups show plainly. The milk intermediates are about to be shed.

Four years.—The permanent intermediates appear at three and one-half and are ready for use at four. The corner teeth give evidence that the permanent corners are coming. The cups in the pinches are about one-third gone. (The tusk, or canine teeth, of male colts may appear about this time.)

Five years.—The temporary corner teeth are shed at four and one-half and the permanent ones are ready to use.

Catarthral Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure catarthral deafness, and that is by a constitutional remedy. Catarthral Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarthral, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrh of the Nose, Throat or Ears cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c. F. J. CHENEY & CO., Toledo, O.

The horse has now what is known as a full mouth, all permanent incisors being ready to use. The cups of the first pair are about two-thirds gone.

Six years.—The cups in the center pair have nearly disappeared. In the second pair they are about two-thirds gone.

Seven years.—The cups from the second pair are now gone. There is a notch in the upper corner tooth where it overlaps the lower one.

Eight years.—The cups having all worn out of the lower nippers, we now look at the upper jaw. Although cups remain in the center pair, they are not deep.

Nine years.—The cups in the center pair of nippers on the upper jaw have disappeared. They are still present in the other two pairs, being fairly deep in the corner ones.

Ten years.—The cups are worn out of the second pair on the upper jaw, although they are still present in the corner pair.

Older horses.—At 11 years all of the cups are usually worn out of the incisors and it becomes necessary to use some other indication. Estimation of age may now be based upon the angle at which the teeth meet, their change in size and shape.

As the horse gets older, the teeth meet more and more at an acute angle; that is, the jaws become more oblique. As the teeth wear down, the shape of the worn ends changes from oval to more nearly round and, finally, in an aged horse to a nearly triangular form. Sometimes cups are cut or burned in the teeth of old horses to make their mouths resemble those of younger animals. This practice, known as "Bishoping," may be detected if the shape of the tooth and the absence of the line of enamel which surrounds the natural cup are noted.

After a horse is 12 years old its condition is more important than its age in determining values.

EAST MONTEPELIER. The auditors of the town of East Montpelier will meet at the town clerk's office Tuesday, Jan. 30, 1917, at 8 o'clock a. m., to audit the accounts of the town officers. Also at the same time and place there will be a meeting of the board of civil authority for the abatement of taxes.—adv.

HAD COUGH 3 YEARS South Schron, N. Y.—Gents: I have been troubled with a cough three years, and as some of my family have died with consumption, I had fears of the same result in my case; but one bottle of Dr. Stansbury's Throat and Lung Healer had wonderful effect in curing my cough. A small bottle has almost cured a sister of the Asthma. Hereafter we would not be without it at any price.
